SUMMARY OF THE INVENTION

lines 8 to 16: amend as follows:

This object is attained in accordance with the present invention in an assembly of the aforesaid genus ~~by the characteristics recited in Claim 1.~~
~~This embodiment~~ which has several advantages. Specifically, a vibration-compensating piston accommodated in a subsidiary housing can be simple in design and simple to install at the end of the piston rod upstream of the shock-absorbing piston, allowing the greatest possible radial support for the piston rod against the housing by way of the shock-absorbing piston.
